THE NETHERLANDS

UNITED KINGDOM

*And soon ... Estonia – Spain - Switzerland*

Comité Européen des Economistes de la Construction  
The European Committee of Construction Economists

**DENMARK**  
*From Rasmus PEDERSEN*  
*Danske Byggeøkonomer - Copenhagen*  
*(DACE, Danish Association of Construction Economist)*

## DENMARK

### 1 // The building team

We have several setups depending if it is private or public building project.

In Denmark we do not have a separate profession like QS or similar.

Budget estimates are usually made by Architects and/or engineers in before construction start and then Contractors usually take over and take responsibility regarding quantities and budgets.

PPP (Private/Puplic/Partnership) is also used in Denmark the last years.

# DENMARK

## 2 // Schedule

Depending on Project size and complexity and type of new building/ renovation/ restauration is to be done, the setup and team can and will adapt to the project.

*As an appendix to this scheme, Rasmus add a overall description (in English ) of the typical design phase and consultant delivery made by Architect and Engineers in a typical Project. (50 pages).*
