THE DUBAI ARCHITECTOURS

Dubai is a cosmopolitan city, where more than 200 nationalities of different cultural origins and languages live together.

This city of contrasts, where skyscrapers with stunning modern architecture bathe in a traditional Arab atmosphere and offer ever more to see and experience in a refined and unique way.

Dubai is an architects' paradise and an extraordinary concentration of high-flying projects in every sense of the word.

THE DUBAI ARCHITECTOURS allows us to approach in detail the most significant achievements. It's an ideal way to familiarise yourself with the sights and to get to know the city.

MUST SEE : Emirates Towers, DIFC, Emirates Bank/NBD, Chelsea Tower, Burj Khalifa, Sheikh Zayed Road, Business Bay, Marina.

THE ABU DHABI ARCHITECTOURS

THE LOUVRE

A dome of light and shadow.

The centerpiece is a huge silver dome that seems to float. Despite its lightweight appearance, the dome weighs more than 7500 tons. The dome is a complex geometric structure of 7850 stars superimposed on 8 layers whose pattern repeats itself in different sizes and angles when the sun shines on it. The light is filtered creating a striking effect under the dome known as the rain of light.

This ode to nature and the elements echoes the palm trees of Abu Dhabi.

The innovative construction of the **Abu Dhabi Louvre** was designed by the architect Jean Nouvel, who won the **Pritzker Prize**. By combining modern architecture and drawing inspiration from the region's traditions, the museum's design reflects the desire to create a universal museum in which all cultures are reconciled.

Located on the island of Saadyat, the Abu Dhabi Louvre offers a global vision of world art history.

Visit the museum : Private guided tour by Emilie or Philippine, specialists of Jean Nouvel's Louvre as well as a presentation by **Marie Christine de Warenghein**, specialist of the Architectours in Dubai, Abu Dhabi and Doha.

THE GRAND MOSQUE

The third largest mosque in the world and the largest in the United Arab Emirates, it has no less than four minarets which are 107 metres high and eighty-two domes of seven different sizes.

The best craftsmen from all over the world were called upon for the interior design.

Visit in the late afternoon at sunset to enjoy the illuminations.
